FIRST Week of Fall Break

Fall is here. Red and yellow appearing on the trees. The temperatures have finally cooled after summer's last hot blast.

With fall comes what feels like a final push to get things done before our attention turns to the holidays and handling the snow and cold.

Today marks the end of the first week of fall break. The students have been enjoying a deserved time off.

One more week and then back to studies.

I have been busy this past week studying to teach a Computer Science class next year.

Also been building a new system to make it easier to turn in Homework.

There is a lot I am looking forward to this week.

-cheering on the colts as they play Pittsburg Steelers Today. and.

Also spending time with friends and family.

why THE Page

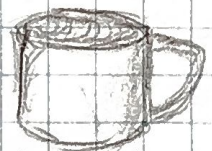

This is the first issue of the Page. A small hand-written newspaper about life, things I am thinking about, and what I am looking forward to.

One sheet of news once per week.

Made with pen, pencil and curiosity
